### TrueSteam®

**TrueSteam®** has the natural ability to fluff up fabric fibres. This allows for the steam particles to clean on a microscopic level. Instead of saturating the stain with just one drop of water, we get 1,600 individual steam particles attacking the stain. By combining both water and steam along with washing at a higher temperature your detergent is dissolved much faster, giving a superior wash.

### Inverter Direct Drive Motor

**The LG Inverter Direct Drive Motor** - combines the direct drive motor with inverter control.  
**Less Noise** - with less moving parts compared to other motor systems it creates less noise  
**Greater Durability** - the direct drive motor system is at the heart of the machine, that's why you get LG's 10 Year Parts Warranty on Inverter Direct Drive Motor.

### 6 Motion Wash Technology

**LG 6 Motion Wash Technology**- LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle. Your washer works out the best combination to give you an outstanding wash, whilst also caring for your clothes.

### Tag On with NFC

**Tag On with NFC** and use the LG Smart Laundry app to download of additional wash programs via a compatible NFC enabled Smartphone and view usage history. The LG Smart Laundry app also has a Smart Diagnosis feature to help diagnose issues with the washer.

Compatible Android Smartphone required. Mobile 3G/4G or WiFi connection, LG Smart Laundry app is required for Tag On feature.

- Android 4.1.2 (JellyBean) or later
- iOS 8 or later can be used for LG Smart Laundry app and Audible Smart Diagnosis feature
