

Samsung Stainless Flat Door French Door SRF644CDLS

Topline key features / benefits

1. Smart Flexible Entertainer's Drawer
2. Separate cooling systems with Twin Cooling Plus™
3. Auto-fill water jug with infuser
4. Sleek Flat Design in Stainless Steel Finish

Limited space key features

Smart Flexible Entertainer's Drawer

With multiple temperature settings and customisable space options, the mid-drawer is perfect for entertaining! Choose between the wine, deli, beverage or meat storage options to help maintain the best possible temperature to keep your items fresh.

Separate Cooling Systems with Twin Cooling Plus™

Twin Cooling Plus™ with separate cooling systems in the fridge and freezer helps maintain the temperature control and minimise mix of odours.

Auto Fill Water Jug

You don't need to wait for water to be chilled with Samsung's auto-fillable water jug. Enjoy a refreshingly cool drink anytime as the fridge always keeps the jug full. There is even an infuser to flavour drinks with your favourite fruits and herbs.

Sleek Flat Design in Stainless Steel Finish

The new stainless steel French Door with a sharply-cut flat door design will make your fridge the center piece of your kitchen.

Detailed key features & benefits

Smart Convertible Flex Zone

The Samsung SRF644CDLS FlexZone™ provides the ultimate in food storage flexibility. With just a few touches, this drawer can be customized to store wine, deli items, beverages or meats at its suitable temperature setting.

Auto Fill Water Jug

The Samsung SRF644CDLS Auto Water Fill Jug automatically refills with 1.4L of fresh water when you place it inside the fridge and close the door. Now you can always have chilled water that's ready to serve.

Metal Cooling

Even with frequent opening and closing of the fridge, Metal Cooling helps maintain temperature with less fluctuations and lends a unique premium look to the fridge interior.

Fresh Crisper

The pullout Fresh Crisper drawer helps stop moisture from escaping and creates an optimal environment that helps preserve fruit and vegetables.

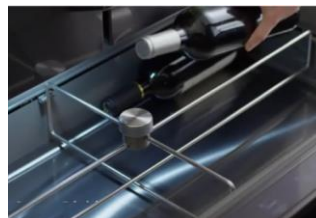

Twin Cooling

Samsung's Twin Cooling System helps optimize the temperature and humidity levels while minimizing the mixing of odours. The fridge and freezer have separate cooling systems to help keep food fresh for longer*.

Sleek Flat Design in Stainless Steel Finish

The new Flat Door design is the ideal combination of aesthetic simplicity and design utility. The look and feel of the fridge puts your kitchen at the cutting edge of modern design.

Smart Divider

The smart divider inside the Entertainer's Drawer can be conveniently adjusted to neatly organise a variety of items. It can also be locked in place to protect glass and other items that may move.

Precise Chef Cooling

Precise Cooling technology detects temperature fluctuations and accurately adjusts the temperature to $\pm 0.5^{\circ}\text{C}$ of your desired setting which helps maintain freshness of food.

DISCLAIMERS

- * Based on testing by Austest Laboratories comparing select Samsung Twin-Cooling Plus models with select Samsung All Around / Mono Cooling models.
